In the media

Dear Readers,

It is my pleasure to bring you highlights and updates for the month of June 2023.

The Istanbul Security Forum hosted a panel discussion focusing on Türkiye as a stabilizing power in an age of turmoil. This provided a platform to evaluate Türkiye's role in promoting regional and global stability amidst uncertainties. We also engaged in a roundtable discussion on "Building the Centre," organized by the In Transformation Initiative. It was a fruitful dialogue aimed at fostering inclusivity and positive change.

Furthermore, we took part in a thought-provoking Living Room Conversation, in collaboration with the Friedrich Ebert Stiftung, the Institute for Global Dialogue, and UNISA. This event encouraged discussions on the solidity of our common ground, emphasizing the importance of unity in our diverse society. Lastly, our participation in the Global Governance Reform from a Global South Perspective Core Group Meeting demonstrated our commitment to shaping global governance in collaboration with experts from different regions.

I am pleased to announce the release of our latest publication titled "The shape of the Electric Vehicle revolution in SA and the possible impact thereof on the Eskom grid." This publication delves into the potential implications of the electric vehicle revolution in South Africa. Understanding and addressing these impacts are crucial for sustainable solutions and future planning.

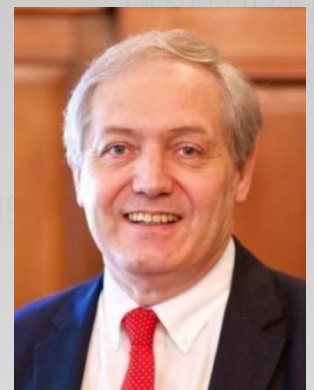

ISI's work and participation have received recognition in various media outlets. The Fana Broadcasting Corporation highlighted our presence at the 12th China-Africa Think Tanks Forum. Additionally, discussions on changing norms to reduce gender-based violence, gender inequality, safeguarding our global village, Africa's trade challenges, and the electric vehicle revolution in South Africa have featured ISI's insights and expertise.

I encourage you to explore the detailed articles and reports in this newsletter.

Thank you for your unwavering support.

Warm regards,

Daryl Swanepoel
