Dear Readers,

As we reflect on July 2024, the Inclusive Society Institute has made significant strides in both local and international engagements. Our commitment to fostering dialogue and understanding across borders was exemplified by our participation in the Global South Perspectives Network (GSPN) planning meeting in Portugal. This meeting was crucial in shaping the future direction of the network, ensuring that voices from the Global South are amplified in global discourses.

Our outreach visit to the United States of America, where we engaged with American think tanks and policymakers, further solidified our mission to create meaningful connections between South African and American institutions. This initiative is vital for fostering a deeper understanding and collaboration on issues of mutual concern.

On the home front, our "Taking the Constitution to the People" initiative continues to make a positive impact. We visited several schools in Gauteng, empowering students with knowledge about their constitutional rights and responsibilities. This programme is essential for nurturing informed and responsible citizens who can actively participate in our democracy.

Lastly, we are proud to announce the release of the latest issue of the *Journal for Inclusive Public Policy*, continuing our tradition of contributing to scholarly discourse on public policy.

Warm regards,

*Daryl Swanepoel*
